Figure 8: TRONIC PRO automatic squeeze

Process to activate the automatic opening:

- I. Enable the Auto Open option.
- II. If the lock allows it, select the Opening Type.
- III. Select which day/s you wish the opening to take place.
- IV. Specify what time you want the opening to take place in Opening Time (HH : MM) and the Duration (HH:MM) for the duration of the automatic opening.

Finally, it is recommended to check the current time of the lock, to avoid possible inconveniences, after each modification of Automatic Opening it is recommended to update the Time of the lock with the "Set Time" button located in the Home.

Auto Opening	Automatic opening: Disabled /Enabled		
Opening mode	Concrete Time. Modifiable if you have the permissions.		
Opening day	Monday/Tuesday/Wednesday/Thursday/Friday/Saturday/Sunday/ Every		
	day/Working days only		
Opening Time	Specific time that you want the Opening to take place.		
(HH:MM)			
Duration (HH:MM)	Duration of automatic opening. If "0 hours" and "0 minutes" are		
	specified, the lock will remain open.
